LMI.net SERVICE POLICY

- LMI.net exercises no control whatsoever over the content of the information passing through LMI.net's networks. You are fully responsible for the privacy of, content of, and liability resulting from your own communications.
- LMI.net makes no warranties of any kind, whether expressed or implied, for the service it is providing. LMI.net also disclaims any warranty of merchantability or fitness for any particular purpose. LMI.net will not be responsible for any damages consequential or incidental that you suffer or inflict on others. This includes but is not limited to loss resulting from computer viruses, delays, non-deliveries, mis-deliveries, or service interruptions caused by LMI.net or your errors or omissions. Use of any information obtained via LMI.net's networks is at your own risk. LMI.net specifically denies any responsibility for the accuracy or quality of information obtained through its services.
- Due to the nature of file sharing protocols such as Bit Torrent, and Kazaa, etc, specific configuration is required when using such file sharing protocols. Typically, the maximum download speed achieved with file sharing is below the capacity of the network and thus does not cause trouble, however, since file sharing will attempt to upload a file to hundreds of users around the globe, the upload speed will often attempt to utilize all of the available bandwidth on the network and thus climb to network limits. As a result, when using file sharing applications, LMI.net requires that its Customers set maximum upload speeds not greater than 100 kbps. If the user does not set this limit, LMI.net may arbitrarily and without notice limit the Customers bandwidth in order to reduce impact to the overall network.
- You agree not to interfere with or disrupt other network users' network services or network equipment, intentionally or not. Disruptions include, but are not limited to, distribution of unsolicited advertising or chain letters, violations of Usenet news etiquette, propagation of computer worms or viruses, and using the network to make unauthorized entry into any other machine accessible via the network.
- These terms and agreements supersede all previous representations, understandings or agreements and shall prevail notwithstanding any variance with terms and conditions of any order submitted. Use of LMI.net's Internet Service constitutes acceptance of these terms and conditions. This agreement shall be construed in accordance with the laws of California.
